## *About Open Gates Equine Rescue*

The mission of Open Gates Equine Rescue, Inc. ("Open Gates") is to protect, rescue and rehabilitate equine (horse, pony, mule, donkey or hinny). Our primary focus area is the State of Maine.

Open Gates acquires abused and neglected horses by donation, State confiscation, or by purchase. In addition, the Animal Welfare Program of the State of Maine has licensed Open Gates Equine Rescue, Inc. based on the Animal Welfare Program's veterinarian inspection of its facilities. There is a critical shortage of equine rescue organizations in Maine; currently Maine has few rescues, but all are at full capacity.

Once in Open Gates' care, we make every effort to bring the equine back to good health. We ensure proper nutrition, medical care, and farrier services such as hoof trims and corrective shoeing.

At present, all of the activities of Open Gates are conducted by volunteers. We currently have eight volunteers of all ages and backgrounds working with us and our trainer to learn how to handle and gain the trust of the individual horses.

Open Gates relies on fundraising, private donation and grants for 100% of our operating costs. You can be assured that every dollar that is donated goes DIRECTLY to the horses. We are a 501-c(3) non-profit and your donation is tax deductible.
